

ABDULLA HASHIR ALI

Software Engineer | PHP/Laravel Developer | Full Stack Developer

Thrissur, Kerala, India | hashirbinali@gmail.com | +91 7736881988

PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience building and maintaining web applications, REST APIs, database-driven systems, e-commerce solutions, and enterprise workflows. Strong hands-on background in PHP, Laravel, MySQL, Vue.js, Nuxt.js, Node.js, and ERPNext, with experience across development, testing, deployment, and client collaboration.

WORK EXPERIENCE

Software Engineer

Poornam Info Vision Private Limited, Kakkanad, Ernakulam

Dec 2024 – Present

- Develop and maintain enterprise web applications using Laravel and Core PHP, focusing on reliability, performance, and business requirements.
- Customize ERPNext modules and workflows to support client-specific operational processes.
- Handle testing, debugging, and issue resolution across releases to maintain production stability.
- Support application deployments through CI/CD pipelines and AWS-hosted environments.
- Develop and customize OpenCart-based e-commerce functionality and backend integrations.
- Work with Node.js for backend services, APIs, and application integrations.
- Use AI-assisted development tools for coding support, debugging, technical research, documentation, and solution design.
- Personally recognized by the client for contributing high-quality code, reliable delivery, prompt support, and professional collaboration on a large-scale website, mobile app, physical device, and IoT project.

Software Engineer

Global Establishment Pvt Ltd, Kaloor, Ernakulam

Jun 2023 – Dec 2024

- Designed and integrated MySQL-backed database solutions for multiple client applications.
- Built and consumed REST APIs connecting backend services, front-end applications, and third-party platforms.
- Developed across the web stack using Laravel and Core PHP for backend development and Vue.js and Nuxt.js for frontend applications.
- Performed functional testing and technical troubleshooting alongside development responsibilities.
- Delivered features on schedule while collaborating with engineering, cross-functional, and client teams.

Software Engineer

ImpplyCloud Pvt Ltd, Pune, Maharashtra

May 2022 – Apr 2023

- Developed reusable and maintainable PHP and AngularJS modules across multiple project areas.
- Integrated database solutions and optimized applications for performance and scalability.
- Collaborated with front-end developers on API integration and UI requirements.
- Performed testing and debugging to identify and resolve issues before release.

Associate Software Engineer

Digitalmesh Softech Pvt Ltd, Kakkanad, Ernakulam

Feb 2021 – Apr 2022

- Worked directly with clients and team members to translate business requirements into working software solutions.
- Developed front-end components using HTML, CSS, and JavaScript and performed unit testing.

EDUCATION

Bachelor of Computer Science

Mother Arts & Science College, Thrissur, Kerala

2016 – 2019

SKILLS

- Backend: PHP, Laravel, Core PHP, Node.js, REST APIs
- Frontend: Vue.js, Nuxt.js, Next.js, JavaScript, AngularJS, HTML, CSS
- Database: MySQL
- Enterprise: ERPNext, OpenCart, Drupal
- Cloud & Delivery: AWS, CI/CD, Git
- Testing: PHPUnit, Postman, Debugging

PROFESSIONAL STRENGTHS

- End-to-end feature development and production support
- Client requirement analysis and technical collaboration
- Backend APIs and third-party integrations
- Testing, debugging, and release readiness
- Enterprise and e-commerce application customization

CLIENT RECOGNITION

Received direct client recognition for contributing high-quality code, exceptional communication, responsiveness, professionalism, and reliable delivery on a complex project covering web, mobile applications, physical devices, and IoT.
